-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Applicant's arguments filed September 27, 2004 have been fully considered but they are not persuasive.

a. The objections made to the drawings, title, and specification have been withdrawn in response to the amendment.

b. With regard to 112, first paragraph rejection, the applicants have included an input which inputs said image pixels in the claims. However, it is noted that there are no means or device to perform this function. The input in the claim is a digital data stream that goes into the processor. Therefore, as claims read now, only physical means present in the claims is the image processor.

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 36-45, 66, 72-91 are rejected under 35 U.S.C. 112, first paragraph, because the specification does not reasonably provide enablement for single means for applying an inverse histogram-based mapping function to the image pixels. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make the invention commensurate in scope with these claims.

It is noted that there are no means or device to perform this function. The input in the claim is a digital data stream that goes into the processor. Therefore, as claims read now, only physical means present in the claims is the image processor.

The MPEP, at paragraph 2164.08(a), states that “[a] single means claim, i.e., where a means recitation does not appear in combination with another recited element of means, is subject to an undue breadth rejection under 35 U.S.C. 112, first paragraph” because a single means claim covers “every conceivable means for achieving the stated purpose” while “the specification disclosed at most only those means known to the inventor.”

3. Claims 45 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 45, line 2 “said image pixels” does not have proper antecedent basis. Moreover, line 3-4 “an image processor for enhancing a digital image comprising image pixels” is confusing in relation to the line 2. Is the digital image same as the input pixels? Are the image pixels at line 4 same as line 2? Please clarify.

4. Claims 5-33, 46, 52-54, 61-65, 67-71 are allowed.

5. Claims 36-45, 66, 72-91 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 2625

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yon Couso whose telephone number is (703) 305-4779. The examiner can normally be reached on Monday through Friday from 8:30 to 5:00.
